3D Systems Announces Accura[®] CeraMAX[™] Composite

- New Wear Resistant SLA[®] Plastic Composite -

ROCK HILL, South Carolina – April 29, 2010 - 3D Systems (NASDAQ: TDSC) announced today the immediate availability of Accura[®] CeraMAX[™], a new composite designed for use in applications that require extreme thermal stability, rigidity and aggressive wear resistance. [Accura[®] CeraMAX[™]](#) is an engineered white plastic composite that offers outstanding stiffness and dimensional stability over time.

"We are pleased to offer a new, high performance rigid composite that is also aesthetically pleasing in direct response to our most demanding customers' requirements," said Steve Hanna, 3D Systems' Global Director of Sales and Marketing for Rapid Manufacturing Materials. "We expect that this composite material will expand the window of practical and artistic SLA[®] applications to an increasing number of new users and industries."

Designed for use with 3D Systems iPro[™] and Viper[™] [SLA[®] Systems](#), Accura[®] CeraMAX[™] Composite is also available through our 3Dparts[™] network, www.3dparts.com.

Forward-Looking Statements

Certain statements made in this release that are not statements of historical or current facts are forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Forward-looking statements may involve known and unknown risks, uncertainties and other factors that may cause the actual results, performance or achievements of the company to be materially different from historical results or from any future results expressed or implied by such forward-looking

statements. In addition to statements that explicitly describe such risks and uncertainties, readers are urged to consider statements in the conditional or future tenses or that include terms such as "believes," "belief," "expects," "estimates," "intends," "anticipates" or "plans" to be uncertain and forward-looking. Forward-looking statements may include comments as to the company's beliefs and expectations as to future events and trends affecting its business and are necessarily subject to uncertainties, many of which are outside the control of the company. The factors described under the headings "Forward-Looking Statements," "Cautionary Statements and Risk Factors," and "Risk Factors" in the company's periodic filings with the Securities and Exchange Commission, as well as other factors, could cause actual results to differ materially from those reflected or predicted in forward-looking statements.

About 3D Systems Corporation

3D Systems is a leading provider of 3-D Printing, Rapid Prototyping and Manufacturing systems and parts solutions. Its expertly integrated solutions reduce the time and cost of designing products and facilitate direct and indirect manufacturing by creating actual parts directly from digital input. These solutions are used for design communication and prototyping as well as for production of functional end-use parts: Our customers Create With Confidence.
