3D Systems' Quickparts Comes To Europe

- Extending Quickparts On Demand Parts Services
- Delivering Instant Online Quoting Capabilities

ROCK HILL, South Carolina –November 27, 2012 – 3D Systems (NYSE:DDD) announced today that effective immediately its Quickparts® on demand parts service is expanding globally, extending its reach across Europe. Simultaneously the company is launching its Quickparts proprietary instant online quoting engine in Europe. Continuous demonstrations of Quickparts capabilities will be on display at EuroMold, November 27 – 30, 2012, in 3D Systems booth D48, Messe Frankfurt, Germany.

Quickparts provides quick turn custom manufacturing services for engineers and designers to create real plastic and metal parts fast for their prototyping and production needs. Using patented QuickQuote® technology, Quickparts is able to provide product designers with a secure "instant online quote" for the manufacturing of real parts including 3D printed parts, CNC machined plastic parts, cast urethane parts, injection molding (tooling and parts), sheet metal parts, and metal castings.

"We are pleased to offer enhanced on demand parts services worldwide through the expansion and integration of the Quickparts brand and capabilities," said Ziad Abou, Vice President and General Manager, Quickparts, 3D Systems. "Just as important, we are delighted to deliver the full array of Quickparts services across Europe, complete with our instant online quoting starting today!"

About 3D Systems Corporation

3D Systems is a leading provider of 3D content-to-print solutions including 3D printers, print materials and on-demand custom parts services for professionals and consumers alike. The company also provides CAD, reverse engineering and inspection software tools and consumer 3D printers, apps and services. Its expertly integrated solutions replace and complement traditional methods and reduce the time and cost of designing new products by printing real parts directly from digital input. These solutions are used to rapidly design, create, communicate, prototype or produce real parts, empowering customers to create and make with confidence.
