3D Systems Launches New ProJet™ CPX*plus* Printer

- Next Generation 3D Wax Printer Launched At Euromold -

ROCK HILL, South Carolina, November 30, 2010 – 3D Systems (NASDAQ: TDSC) announced today the immediate availability of a new wax 3D Printer, the ProJet™ CPX 3000*plus* which will be on display at the 2010 Euromold Exhibition and Conference December 1 – 4th, Hall 11, location D46.

The [ProJet™ Plus](#) series features a 60% expanded high definition build envelope with up to 20% increased print speed. The ProJet™ CPX 3000*plus* printer now comes with a new 20 micron high resolution option that delivers exceptional wax patterns with smooth surface quality and fine feature detail in less time. With the CPX*plus* the end user selects the best combination of speed and resolution, ensuring maximum productivity. Each [ProJet™ CPX 3000*plus*](#) includes a 5 year print head part warranty.

“Our [ProJet™](#) printers offer unmatched applications flexibility, including precision wax patterns with the CPX 3000,” said Buddy Byrum, senior director, 3D printing for [3D Systems](#). “We are pleased to take this foundry solution to the next level with the new CPX 3000*plus* because it delivers exceptional value to our customers through increased productivity and the ability to print larger precision patterns.”

About 3D Systems Corporation

3D Systems is a leading provider of 3D Printing, Rapid Prototyping and Manufacturing systems and parts solutions. Its expertly integrated solutions reduce the time and cost of designing products and facilitate direct and indirect manufacturing by creating actual parts directly from digital input. These solutions are used for design communication and prototyping as well as for production of functional end-use parts: our customers create with confidence.
