## 3D Systems Ships Geomagic Capture

- First integrated 3D scan-to-design and inspection solutions available today
- Scan-to-CAD capabilities with integrated scanners and Geomagic software

### **ROCK HILL, South Carolina and Frankfurt, Germany –December 4, 2013 – [3D](#)**

**[Systems](#)** (NYSE:DDD) today announced the immediate availability and shipping of **[Geomagic Capture](#)**<sup>®</sup>, a family of powerful, integrated desktop scanner and software tools for professional scan-based design and quality inspection ranging in price from \$14,900 to \$24,900. The company is exhibiting its entire Geomagic Capture family **[December 3-6 at EuroMold 2013 in Frankfurt, Germany](#)** as part of its 3DPRINTING 2.0 showcase.

Geomagic Capture is available in six configurations, and each package includes a compact, ultra-precise, blue light LED scanner directly integrated with Geomagic software including:

- Geomagic Capture for SolidWorks<sup>®</sup>
- Geomagic Capture for SpaceClaim<sup>®</sup>
- Geomagic Capture for Design X
- Geomagic Capture for Design Direct
- Geomagic Capture for Control
- Geomagic Capture for Verify

Using Geomagic Capture, designers and engineers can for the first time instantly incorporate real world objects into CAD at their desktop. Using easy and intuitive software with direct CAD plugins Geomagic Capture compresses design time, increases productivity and delivers significantly faster product development cycles. Geomagic Capture packages address a variety of applications including precision desktop scanning and integrated high-quality inspection software with pushbutton workflow and automated reporting.

For more information visit <http://geomagic.com/en/products/capture/overview/>.

3D Systems is commencing shipping of its game-changing Capture immediately and revealing a dozen new products that catapult its entire portfolio of design-to-manufacturing solutions forward at [EuroMold 2013 in Frankfurt, Germany, December 3 – 6, 2013 at the Frankfurt Messe](#), hall 11, stand E68. The exponential speed, size and capacity gains delivered by these groundbreaking printers, advanced material options, and new scan-to-design and inspection tools defines the very essence of 3DPRINTING 2.0.

### **About 3D Systems Corporation**

3D Systems is a leading provider of 3D content-to-print solutions including 3D printers, print materials and cloud sourced on-demand custom parts for professionals and consumers alike with materials including plastics, metals, ceramics and edibles. The company also provides integrated software and hardware tools including scan to CAD and inspection. Its expertly integrated solutions replace and complement traditional methods and reduce the time and cost of designing new products by printing real parts directly from digital input. These solutions are used to rapidly design, create, communicate, prototype or produce real parts, empowering customers to ***manufacture the future.***
