

# IMPROVE YOUR 3D INSPECTION ROUTINE.

Geomagic Control X lets shop floor and quality managers significantly improve their productivity during the inspection process. See how easy it is to get accurate results with our optimized workflow.

## INPUT

Supports all industry-standard, non-contact and optical scanners, and a wide range of portable probing and tactile devices.

- DIRECT SCANNER INTEGRATION
- PREPLANNED PROBING ROUTINES
- WALK-UP INSPECTION TOOLS
- SCANNING AUTOMATION

## INSPECT

Conduct First Article inspections quickly using CAD-based dimensioning tools and get communication-ready information instantly.

- CAD-AWARE DIMENSIONING AND GD&T
- MULTIPLE RESULT ANALYSIS
- SYNCHRONOUS INSPECTION
- WORKFLOW-DRIVEN PROBING PROCESSES
- ROOT CAUSE ANALYSIS & TRACEABILITY

## REPORT

Report definition in Geomagic Control X is highly flexible, making customized communication fast and simple for each stakeholder.

- VIEWPOINT-DRIVEN REPORTING
- CUSTOMIZABLE TEMPLATES

## ANALYZE TRENDS

Analyze multiple inspection projects simultaneously to investigate part to part deviations, and automatically compile statistical reports to track manufacturing capability over time.
